Consultant Team Review of 2020 Plan Outline

Presented By: EERMC Consultant Team

Date: June 20, 2019

The inaugural Plan Outline

- A valuable addition to the Planning process
- Frames expectations for first draft – Proposes directions but doesn't prescribe all the specifics
- Allows for initial input from all Stakeholders into what the first draft will contain
- Defines areas warranting more analysis and research

Intention and Objectives of Outline

- Intention of Outline is to highlight program/policy changes from previous Plans to help shape discussion....
- Key areas to be discussed over next few weeks include:
 - Lifetime MMBtu Goal target and resulting Performance Incentive
 - Ongoing basic issues: **All** cost-effective savings target; Equity; Innovation; Financing; Environment/carbon impacts
 - Rapidly evolving issues: Future of Lighting; Heating Decarbonization; Workforce development; Integration & coordination with related state efforts, i.e. Power Sector Transformation
